

# DEEPAK

Web Developer

8126814640 @deepakfulara1464@gmail.com Dehradun, India

## SUMMARY

I am a motivated Computer Science student with expertise in web development and software engineering. I have a strong foundation in problem-solving and have actively worked on various personal projects and internships, developing impactful, user-focused solutions. My hands-on experience with modern technologies, combined with my passion for software development, drives me to create innovative applications.

## EXPERIENCE

PHP Development Intern 08/2024 - 10/2024  
Mobrilz Private Ltd Noida

- A company specializing in e-commerce solutions.
- Developed an e-commerce website, contributing to the integration of product catalogs, user authentication, and secure checkout.
  - Optimized user experience by implementing payment gateway integrations and ensuring responsiveness across devices.

## EDUCATION

Bachelor of Technology in Computer Science 08/2021 - 01/1970  
Graphic Era Hill University Dehradun

## CERTIFICATION

ReactJS - Udemy

Completed a comprehensive course on ReactJS, gaining expertise in building dynamic, scalable web applications with React

## TRAINING / COURSES

Data Structures and Algorithms

Fundamental concepts of data structures, algorithms, web development, and database management.

Web Development

Hands-on experience with HTML, CSS, JavaScript, and web frameworks.

Object-Oriented Programming (OOP)

Exploring object-oriented programming principles and practices.

Database Management Systems

Understanding of database management and systems.

## SKILLS

Algorithms · Cloud Computing · CSS · Data Structures · database management · dbms · flask · HTML · Java · Javascript · node · node.js · OOP · oops · OpenCV · PHP · Python · reactjs · socket.io · SQL · Sqlite · Tensorflow

## PROJECTS

Face Recognition Attendance System

03/2022 - 05/2022

A system utilizing facial recognition technology for attendance tracking.

- Developed an automated attendance system using facial recognition for real-time tracking.
- Reduced the need for manual records.

AI Image Recognition Web Application

07/2023 - 10/2023

Web application for image recognition leveraging AI.

- Built a web app for image recognition allowing users to upload images.
- Classified images using pre-trained AI models.

Real-Time Chat Application with Socket.io

06/2024 - 08/2024

Real-time chat application built using Socket.io.

- Created a real-time chat application supporting instant messaging.
- Implemented room creation and user presence indicators.

## PASSIONS

Participating in Hackathons

Active in participating in hackathons focusing on innovative solutions.

Web and App Development

Enjoys web and app development as a creative outlet.

Software Development

Strong interest in software development and its impact.
